

## **The Bible in a Year - 2011**

Have you ever read through the entire Bible? At the end of 2011, wouldn't it be great to read the closing words of Revelation knowing that you have read the entire Bible in one year?

The following website has easy instructions, and you can check off boxes after completing each reading every day: <http://www.biblestudytools.com/bible-reading-plan>

Will God love you more if you do this? No.

Will God love you less if you don't do this? No.

Will you love God more if you do this? Possibly.

Will you understand more of God, life, and our place in it? Most likely.

I'm jumping in and giving this a go. Want to join me? I truly do look forward to walking with God and with each of you in 2011... and God will use us to hold somebody's hand, and help them get up and walk in the ways that lead to life in 2011 as well. To God be the glory!

In hope and anticipation,  
Ken

PS: the Logos Bible Study group that meets on Saturday mornings will be discussing the readings from the previous week.
